

## ONICON's Technology Tour

***Metering is an essential part of every hydronic energy system.  
Are you keeping up to date on the latest trends and technologies?***

In this, hands-on, educational seminar,  
you will understand:

- What to measure
- Why you should measure it
- How you should measure it
- How to gather the information
- What to do with the information

Installation, wiring and programming can  
also be covered depending on your needs.

*Don't miss this opportunity to see all of  
ONICON's flow and Btu measurement  
technologies in action, all in the same place  
at the same time, right in your own backyard.*

**Presented by:** MCR Technologies

**Date:** March 1, 2016

**Time:** 9:00AM - 2:00PM

**Location:** Petroleum Club - 3636 Linden Ave  
Long Beach, CA 90807 (562) 427-7966
